**Re: MB Docket No. 03-15
KGMB-DT and KHON-DT, Honolulu, HI
Replication/Maximization Interference Protection Deadline**

Dear Ms. Dortch:

On behalf of Emmis Television License, LLC (“Emmis”), the licensee of digital television (“DTV”) stations KGMB-DT and KHON-DT, Honolulu, Hawaii (Facility Id. Nos. 36917 and 4144, respectively), we hereby notify the Commission that on June 30, 2005:

1. KGMB-DT commenced operation on Channel 22 at 15 kW ERP pursuant to special temporary authority (File No. BDSTA-20050616ABJ);
2. KHON-DT commenced full-power operation on Channel 8 pursuant to automatic program test authority in accordance with the terms of its construction permit (File No. BMPCDT-20040608ABB); and
3. An application (ARN 20050630AEL) was filed on FCC Form 302-DTV for a license to cover the KHON-DT construction permit.

It should be noted that KGMB-DT’s current DTV construction permit does not expire until September 16, 2007. *See* FCC File No. BPCDT-20040608AAZ. Thus, although KGMB is a top four network-affiliated station in one of the nation’s top 100 markets that has chosen its analog channel for post-transition operation, the station is not subject to the requirement that it serve 100% of the population served by its 1997 NTSC facility by July 1, 2005. *See* Public Notice, *DTV Channel Election Issues – Compliance with the July 1, 2005 Replication/ Maximization Interference Protection Deadline; Stations Seeking Extension of the Deadline*, DA 05-1636 (rel. June 15, 2005).
